Mindfulness in Daily Living

WHAT IS MINDFULNESS?

Mindfulness is paying attention in the here and now with a quality of openness, curiosity and kindness. This practice teaches us to meet the present moment experience, which includes all the thoughts, feelings, sensations, sounds etc., with a stance of allowing discernment. Over time and with practice, many find that through mindfulness they gain more clarity about circumstances in their life and they are better able to handle stressors at home and in the workplace.

MINDFULNESS PRACTICES at HOME and in the WORKPLACE

- **Daily Five Minute Breath Meditation:** Sit comfortably in a place where you are unlikely to be disturbed. Pay attention to the breath for five minutes as it moves in and out of the body (focusing at the nose, chest or at the abdomen.) Allow yourself to attend to the breath with interest and openness. When your mind wanders, notice where you have gone and gently return to the breath. Remember, you are not trying to achieve any particular state ... we are practicing being present now with whatever is here. See what happens.
- **Mindful Eating:** Eat a snack mindfully. Notice the sight, touch, smell, taste, sound and thoughts and feelings you are experiencing while you are eating. When the mind wanders, bring your attention back to the act of eating.
- **Mindful Movement:** The longer you sit at a desk, the worse you physically feel. For every thirty minutes of sitting, do four minutes of movement. Stretch your arms over your head, walk, do some neck rolls. Notice how your body feels before and after you move.
- **STOP – Stop, Take a Breath, Observe and Proceed:** This is a helpful tool to help you cope with stress. Learning to STOP can prevent you from becoming overwhelmed by negative emotions. Also, if the moment is pleasant, you can truly enjoy this pleasant moment, instead of missing it. Doing "STOP" can also add a moment of mindfulness at any time during your day.
- **Other Daily Mindfulness Practices:** Practice mindfulness while brushing your teeth, shaving, making coffee, washing dishes, folding laundry, taking out the garbage, walking to the bathroom, driving, window gazing, etc.
